

Securely send and receive emails and files

The BK Group has proceeded to a secure method of sending and receiving e-mails in line with the new GDPR/AVG legislation. This is done with the program CryptShare and is accessible via a Web Portal. How you, as a client, can use this possibility, is further described here:

Receive secure e-mail and/or files

1. Notification

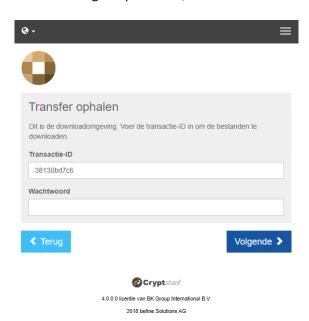

When a confidential email and/or attachment is ready, a similar email is sent to the recipient:

Click the "Download Files" button in the received email and you will be directed to the download page at https://securetransfer.bkgroup.com

2. Enter the password (if necessary)

Should a password be used for additional security, it will be emailed to you separately or sent via SMS. After entering the password, click "Next"

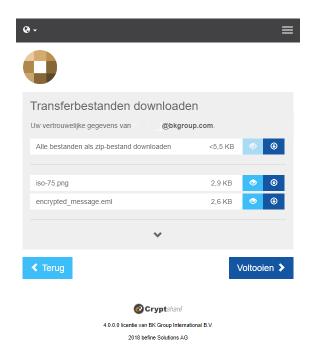

3. Download

Click on the View button oview the files or the secure email online

To download the files, click the Download button.

Save the files and then click on "Finish"

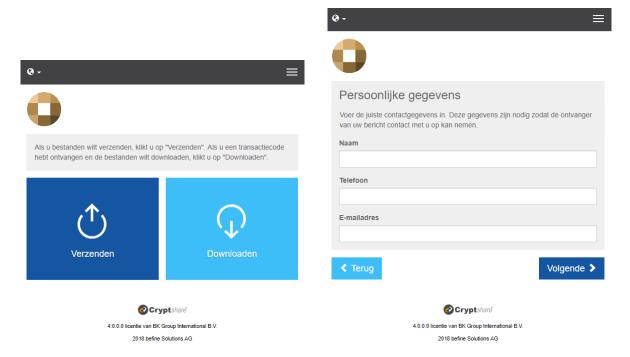

Send secure e-mail and/or files

The BK group also offers you the possibility to send e-mails and/or files up to a maximum of 2 GB in a secure way to the email addresses within the BK group.

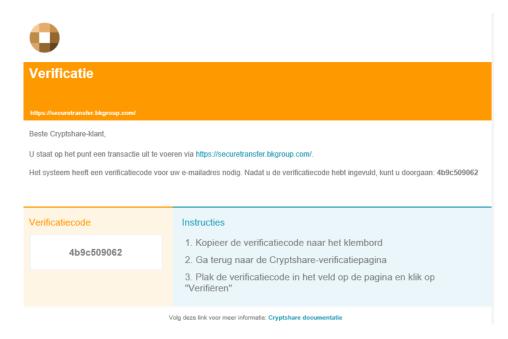

1. Go to https://securetransfer.bkgroup.com

Click "Submit" and fill in the next screen. It is important that a valid e-mail address is used. A code is sent to this email address for verification. Then click on "Next"

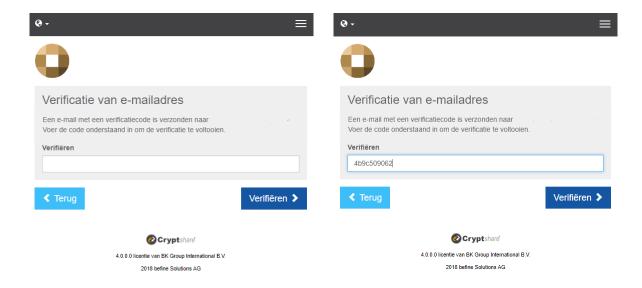

2. Verification email Address

An email will be sent to the previously entered email address with a verification code:

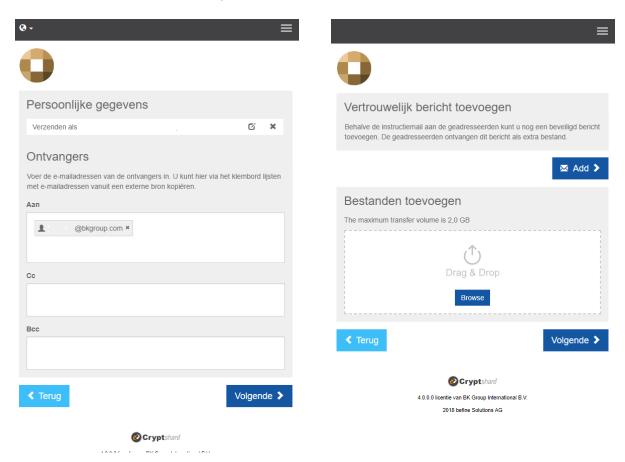

Copy this code and paste it into the "Verify" field on the Web page and click "Verify"

3. Recipient(s)

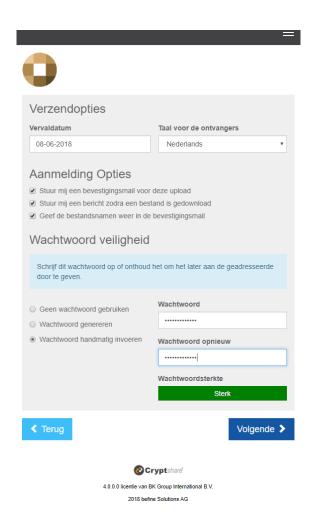

Enter the email address of the recipient(s) and click "Next"

You can now add a confidential message and/or files and click "Next"

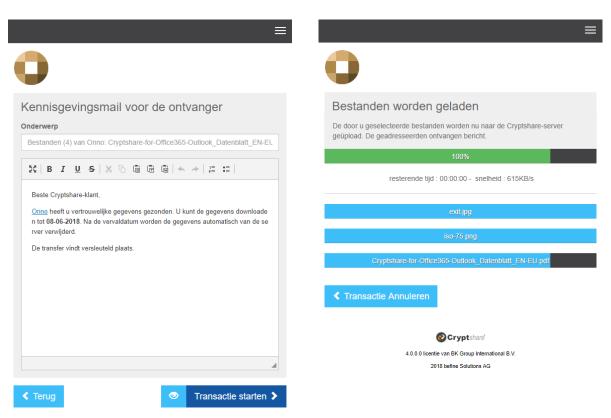

4. Options

Several options can now be selected. In addition, a password can be specified here. Write down or copy this password and pass it on to the recipient. Click "Next" to continue.

5. Check

Make sure all data is correct and click "Start Transfer"

6. Completion

The transaction is now complete and the files have been sent. You will receive a confirmation when the recipient opens the file.

De transactie is voltooid. Dit is een samenvatting van de transactie. Alle bestandsnamen en opties die u hebt geselecteerd worden in dit scherm weergegeven.
